### **Closure of Regulatory Observation – RO-ABWR-0009 - Analysis of loss of offsite power events**

I refer to Regulatory Observation RO-ABWR-0009 issued on 5<sup>th</sup> June 2014.

Following a review of the three reports below, I am satisfied that Hitachi-GE has adequately addressed the two actions on RO-ABWR-0009:

- Topic Report on SBO Analysis, AE-GD-0265 Revision 6
- Topic Report on Fault Assessment, UE-GD-0071 Revision 5
- Topic Report on Design Basis Analysis, UE-GD-0219 Revision 11

On this basis, I can confirm the closure of RO-ABWR-0009.

Hitachi-GE should continue with its plans to update AE-GD-0265 to Revision 7 to incorporate the minor changes discussed with ONR.

A copy of this letter will be published on the ONR website in due course.
